

COURSES:

EXERCISE SCIENCE MAJOR:

13 courses, including:

- EXSC 1004 Introduction to Exercise Science
- EXSC 2004 Health Promotion
- EXSC 2094 Anatomy and Physiology I (or BIO 2014)
- EXSC 2104 Anatomy and Physiology II (or BIO 2104)
- EXSC 3014 Physiology of Exercise
- EXSC 3054 Biomechanics
- EXSC 3204 Nutrition and Energy Balance
- EXSC 4204 Internship
- EXSC 4444 Senior Seminar/Capstone

4 elective courses

EXERCISE SCIENCE MINOR

7 courses, including:

- EXSC 1004 Introduction to Exercise Science
- EXSC 2094 Anatomy and Physiology I (or BIO 2014)
- EXSC 3014 Physiology of Exercise
- EXSC 3054 Biomechanics
- EXSC 3204 Nutrition and Energy Balance

2 elective courses

FACULTY

Kirk Abraham, Program Director
Associate Professor of Exercise Science
kabraham@transy.edu

Sharon Brown
Professor of Exercise Science
sbrown@transy.edu

Saori Hanaki
Assistant Professor of Exercise Science
shanaki@transy.edu

EXERCISE SCIENCE

TRANSYLVANIA
UNIVERSITY

Office of Admissions

300 North Broadway
Lexington, KY 40508
(800) 872-6798
transy.edu

ABOUT THE MAJOR:

With a foundation in the liberal arts, Transylvania's exercise science program offers a dynamic curriculum that is focused on scientific approaches to human movement.

Faculty expertise in physiology, nutrition and biomechanics allows for the integration of science and health in covering a variety of topics about exercise and wellness. Students gain knowledge about the role of physical activity and health in their lives, and the exercise science major allows them the opportunity to apply concepts learned in class to practical experiences through off-campus internships. Additionally, students have the opportunity to complete summer research projects under the direction of a professor. The diversity of the exercise science major provides students with a broad range of post-graduate opportunities.

Exercise science majors at Transylvania benefit from the Clive M. Beck Athletic and Recreation Center, a 97,000-square-foot, state-of-the-art facility that accommodates varsity sports, intramurals, fitness activities and casual recreation. While the center was designed for all Transylvania students, it fills the curricular needs of the exercise science program, offering three classrooms, an exercise physiology lab, a dance studio with sprung floor and a training room with hydrotherapy facilities.

WHERE OUR GRADUATES HAVE STUDIED:

George Washington University
Johns Hopkins University
Columbia University
University of Tennessee
Vanderbilt University
Washington University in St. Louis
University of Evansville
University of New Mexico

POSITIONS OUR GRADUATES HAVE HELD:

Physical therapist
Occupational therapist
Cardio rehab specialist
College professor/coach
Physician assistant

INTERNSHIPS STUDENTS HAVE COMPLETED:

Lexington Clinic
University of Kentucky Health Care
Baptist Health Care
Fayette County Public Schools
Physical therapy clinics
Occupational therapy clinics

COURSES OF SPECIAL INTEREST:

Anatomy and Physiology
Nutrition and Energy Balance
Physiology of Exercise
Health Promotion
Biomechanics
Women's Health
The Life of a Muscle

"Transylvania improved my quality of life. And now it is my goal and professional responsibility to give back to the community by improving the quality of life for my patients."

Haley Riney '07, physical therapist
