

PRE-ENGINEERING & THE DUAL-DEGREE ENGINEERING PROGRAM

TRANSYLVANIA
UNIVERSITY

PRE-ENGINEERING

Transylvania has a unique partnership with the University of Kentucky College of Engineering that lets you take foundational engineering courses at UK while at Transy. You can start those courses as early as your sophomore year, and they will count toward your degree at Transylvania. The classes provide you with the necessary prerequisites for graduate study in engineering, and they won't cost you any extra—they're included in our tuition and fees.

Students must have a 3.0 cumulative GPA and sophomore standing to participate in the pre-engineering program, no matter your major. Our pre-engineering advisor will help you select your courses and prerequisites.

DUAL-DEGREE ENGINEERING PROGRAM

You can receive both a B.A. degree from Transylvania and a B.S. degree in engineering from the University of Kentucky College of Engineering. This program requires three years of study at Transylvania and two additional years at UK.

GRADUATE SCHOOLS OUR STUDENTS HAVE ATTENDED

Michigan Technological University
Virginia Tech
University of Kentucky
University of Pennsylvania

ENGINEERING OPPORTUNITIES/DISCIPLINES

Biomedical
Chemical
Civil
Computer
Electrical
Environmental
Mechanical

"I appreciate the challenge of Transy's classes and professors and how well they have prepared me for graduate school. I also get all the benefits of a UK student, with access to their facilities and connections for engineering internships."

Andrew Meyer '17, pre-engineering student
